

Technical Standards For Entry-Level Nursing Program

These technical standards are required abilities for effective performance in Minnesota nursing education programs. The standards are compatible with the scope of practice as defined by the Minnesota State Board of Nursing. The examples show how a standard may be applied in entry-level nursing education programs. The examples listed are for illustrative purposes only and not intended to be a complete list of all tasks in an entry-level nursing program.

Reasonable accommodations to meet standards may be available for otherwise qualified individuals with disabilities. Contact the college/university's Disability Services Office as soon as possible for more information if you think you may need an accommodation for a disability.
