

# How to Read Your Degree Audit

The top of the header includes your Student ID, your name, the program code, and the program name. It may include other information such as catalog year, advisor, etc.

## Drilling Down in the Audit

Each of the categories in the bar chart (e.g. Major) may consist of several requirements. You may drill down to view these individual requirements and their associated charts and graphs by clicking on the bar graph for that category. You may drill down another level to view individual sub-requirements and the associated charts and graphs for those sub

## Course History

You may also view all of your courses in total or by term by clicking on the View Course History link. When you mouse over the Bar Chart you will see credit (green bar) and GPA (green dot) details for each term. You can also
